REPORT WEATHER ACTING QUEERLY

INTER-ISLAND STEAMSHIP MEN IMPRESSED BY UNUSUAL CONDITIONS AT SEA.

Queer weather is reported by vessels of the Inter-island fleet making port yesterday. On Sunday afternoon last, as the S. S. Nihon was leaving Manale, Kaula, a sudden rain fell, accompanied by thunder that seemed louder than any sailor aboard had ever observed in these islands, and lighting that was unusual for these parts were electric storms are not generally classed as terrific.

Head seas and great swells were encountered and the run from Manale to Makaweli was most uncomfortable.

These conditions seemed remarkable, following, as they did, the calmest sea that any Inter-island sailor-men have ever beheld.

The crew of the Mikahala on Thursday night last, en route from Honolulu to Waimea, Kaula, expressed surprise at the almost unbelievable smoothness of the water. Some were awed by what appeared to them a glassiness of the water that bespoke some treachery on the part of old ocean. The old millpond simile was brought to mind, but did not seem to fit the occasion. Master and men could not get the smoothness of the water out of their thoughts. It meant something that they could not explain. No one thought of earthquake or submarine disturbance and yet a submarine earthquake was probably responsible for the extraordinary face of the waters, for it is generally believed that either unusual roughness or ordinary smoothness may be ascribed to seismic phenomena, according to the nature of action, the upheaval of a portion of ocean floor perhaps creating a commotion on the surface or a subsidence causing a millpond effect.

When the Mikahala reached Waimea, everybody was talking about the earthquake which, as it developed, was felt here and throughout the islands.

This afternoon at the Hawaiian News Co. in the Young Bldg.

A special meeting of the Anti-Saloon League will be held this afternoon at three o'clock in the Hawaiian Board rooms. Hon. J. G. Wooley president of the league this morning stated that he knew of nothing of importance that would come up at the meeting.

The Star inadvertently stated on Tuesday that the local wireless was not able to receive "more than fifty miles," in referring to possible Hilo messages. The figures were erroneous, as the local system can receive from much farther and constantly does business nearly 200 miles direct to Hawaii.

Col. John Biddle, U. S. A., in charge of the division of California and Hawaii, for the Army Engineers, is expected in this city on the transport arriving about January 13. Col. Biddle will make the annual inspection of work which has been done in this city.

A cablegram was received Tuesday night announcing that Mr. Fisher, father of Col. J. H. Fisher, Auditor of the Territory, and Will E. Fisher, lately of Honolulu, had died. G. W. R. King of the Audit office sent the news to Col. Fisher, who is absent on Hawaii, by wireless.

A special sale of Glassware is on at Lewis & Co. Ltd., the Crochery and Glassware Emporium 109 King street. Plain and Engraved Tumblers, Fleur de Lis Finger Bowls, Wine Glasses all kinds, Beer Tumblers, Hollow Stem Champagne Glasses. See their fine Stock or Telephone Main 240 and they will send you same on approval.

Owing to the recent finding of three bonds of face value of \$1000 each belonging to the estate of the late John H. Bliss, N. B. Winston, executrix of the will, has asked and obtained from the probate court an extension of time until December 31st in which to file her inventory of the estate.

There will be little doing in court circles for the next week, owing to the Holiday season. Both the United States District Court and the Supreme Court are adjourned until after New Years and the Circuit Court Judges are not attempting to hold court except on emergency matters, which do not require a jury.

Condemnation proceedings will be instituted probably today, by the Territory, through Attorney General Hemenway for the ground necessary for the opening up of Bishop street through from King street to Merchant street, in accordance with the conditions on which the Federal government accepted the Mahuka property as a site for the federal building. The United States is at present carrying on condemnation proceedings to clear the title to the property itself, and the Territory will similarly clear the ground needed for the street.

COMPLAINT OF THE JAPANESE

(Continued from Page one.)

gendered. Since the departure of Gov. Frear for this city, where he has been for several weeks past, Mr. Mott-Smith, the acting governor, was called upon by the Japanese consul general to look into the case of Mr. Lovell, a jailer, at Lihue, Kauai, who, it is alleged, kicked a Japanese prisoner to death. Lovell was tried for murder, and was acquitted. The Japanese say that a clear case was proved against Lovell, and that the verdict was a miscarriage of justice. It is believed that matters can be adjusted without requiring any official representations by the Japanese embassy to the State Department.

HILONIAN UNREPORTED.
